医学英語セミナー/Education-oriented Webinars (3)

Climate Change as a Driver of Emerging and Re-emerging Infectious Diseases

Invited Speaker:

Prof. Colleen Lau (University of Queensland, Australia)

Date & time:

Dec. 9 (Wed.) 2026, 18:15 to 19:45 (LIVE)

Description: In this webinar, Prof. Lau will discuss how climate change can affect the transmission of infectious diseases as well as socio-environmental drivers of disease transmission. She will illustrate these concepts with examples and discuss ways in which we can reduce the impact of climate and environmental change on disease burden.

Bio: Prof. Colleen Lau is a medical doctor and infectious disease researcher. Her expertise includes travel medicine, emerging infectious diseases, neglected tropical diseases, global disease elimination programs, and spatial epidemiology. She has a special interest in the impact of global environmental change (including climate change, population growth, urbanization, and globalization) on the emergence and transmission of infectious diseases.

Registration is compulsory. For registration, please use the following link or scan the QR code.
We will send you the webinar Zoom link.
Application deadline: Dec. 7 (Mon.), 2026
